
Books about Bodies, Relationships and Sexual Health

for Children, Teens,
Educators & Parents

Whatever your child's age, gender, ability, sexual orientation, faith, ethnicity or culture – it is never too late to begin talking!

Using books to talk to children and teens about relationships, bodies, reproduction and sexuality is a good way to increase comfort and knowledge for them and for you!

It is important to read the books before reading them with your child or letting your child read them on their own. This way there will be no surprises and you will be able to answer questions they may have.

Tips for Talking to Your Child about Sexual Health

1. Try to have an open and honest communication style.
2. Listen and stay calm.
3. Accept that it may be uncomfortable, awkward and embarrassing.
4. Educate yourself about sexual health and sexuality.
5. Reflect on your own upbringing and sexual health education.
6. Talk about feelings and emotions.
7. Stay informed with the music, television and social media your child listens to, watches and uses.
8. Look for everyday opportunities to have a discussion.
10. Ask your child questions to find out what they already know.
11. Normalize sexuality – it should be a healthy part of life.
12. Use the correct language for ALL body parts.
13. Repeat, repeat, repeat – we all learn best through repetition.
14. Communicate your own values & beliefs.
15. Have a sense of humour; relax and have fun.

It is never too late to start communicating with your child. You don't have to know everything, you just have to start talking and be willing to learn with them – books can help start the conversation and keep it going.

Teaching Children and Teens about Love, Respect, Sexual Health & Relationships through Books
