

Instructions - Condom Game

How to Put on a Condom

You will need:

1. Condom cards
2. Condoms (non-latex if people have sensitivities or allergies)
3. Wooden penis

In small groups, or as a larger group, decide which order the cards go in. Once the cards are in an order go through each one and have a discussion about each step.

Discuss that condoms can be used during sex with another person or while masturbating (this can help make clean up easier).

Do a demonstration putting a condom on a wooden penis. If people are comfortable let them practice as well. This is not a race. It is important that the condom is put on properly.
